3.0 THE ECONOMY IN 2020

Economic recovery expected in 2020, with projected growth of 3%. This is premised on the following assumptions:

- Expected better rainfall season
- Increased use of irrigation to sustain agricultural activities;
- Better planning for agriculture production;
- Improved electricity supply through imports and other alternative sources of energy e.g solar;
- Improved macro-economic environment;
- Fiscal incentives to various sectors of the economy;
- Improving investments by both public and private sector.
